August 9, 1967

Dear Bill:

I want to let you know how very useful your recent Intelligence Memoranda on the Soviet Communications Satellite System and their SST have been. Their timing has been most appropriate in view of the U. S. policies that are currently being formulated in these areas.

Keep up the fine job.

Sincerely yours,

**MEMORANDUM FOR:** Mr. John F. Root  
Country Director, Algeria, Libya,  
Morocco, Spanish Sahara, Tunisia  
Bureau of African Affairs  
Department of State

**SUBJECT:** Drought in Morocco

1. The attached intelligence memorandum discusses the drought in Morocco and its impact on the economy.

2. By the end of 1967, the Moroccan economy will feel the full impact of two successive years of drought. Increases in wheat imports already have caused a reduction in Morocco's foreign exchange reserves and are likely to intensify pressure on the balance of payments.

3. The current internal economic decline is unlikely to be checked next year and the resulting problems could lead to manifestations of popular discontent like the Casablanca riots of March 1965.
